Experience.

Co-Founder and Project Lead · **Develop Kreativity** Nov 2023 — Present

I lead the design and development of several projects, creating platforms that meet client needs and transforming their concepts into tangible results.

- Design and development of user interfaces with HTML, CSS, and JavaScript.
- Back-end and API development with PHP and CodeIgniter 4.
- Full-stack development with WordPress.
- Consumption of REST APIs with JavaScript.
- Modeling and implementation of MySQL databases.

Technologies: PHP · CodeIgniter · JavaScript · HTML · CSS · MySQL · WordPress · Figma · cPanel

Full-Stack Developer (Working Scholar) · **University of Southern Philippines Foundation** Jun 2023 — Present

I collaborate in the development of several web system applications for the university and its stakeholders, including an AI/ML chatbot called Augi and the USPF Digital app, as well as enhancements to existing web system applications.

- Design and development of user interfaces with HTML, CSS, and JavaScript.
- Back-end and API development with PHP and CodeIgniter 4.
- Consumption of REST APIs with PHP and CodeIgniter 4.
- Modeling and implementation of MySQL databases.

Technologies: PHP · CodeIgniter · JavaScript · HTML · CSS · MySQL · Bootstrap · jQuery · cPanel · AWS · Git

Back-End Developer · **MyToolz.net** Jul 2021 — Dec 2021

I contributed to the design and development of several web tools, including account checkers and content generators, as well as the enhancement of back-end and API infrastructures, improving service speed and the user experience.

- Design and development of user interfaces with HTML, CSS, and JavaScript.
- Back-end and API development with PHP.
- Consumption of REST APIs with JavaScript.
- Modeling and implementation of MySQL databases.

Technologies: PHP · JavaScript · HTML · CSS · MySQL · jQuery
